iCloud

Turning on iCloud

1. Open Settings

2. Navigate to the iCloud menu from the settings list on the left

3. Choose iCloud Drive
4. Choose **Upgrade to iCloud Drive**

![Upgrade to iCloud Drive](image1)

**Note:** You will not be able to access the documents currently stored in iCloud on your other devices until they are also upgraded to iOS 8 or OS X Yosemite.

5. Select **Continue**

7. Choose the buttons next to Keynote, Numbers and Pages. It should look like the picture below with all the buttons turned to green. Continue this with the other educational apps such as iMovie.

![Setup with buttons](image4)
8. Scrolling down the settings list, choose keynote.

9. Select the button next to Use iCloud. When it is green, the data in that app will be synced with iCloud. Continue with Pages, Numbers, iMovie etc.
